Dear Sir:

Pursuant to 37 CFR §§1.56, 1.97 and 1.98, Applicants request the Examiner to make of record the document listed on the attached PTO/SB/08 form in connection with examination of the above-identified patent application. As provided in §1.97(g), no representation is made or intended that a thorough art search was made. As provided in 37 C.F.R. §1.97(h), this Information Disclosure Statement does not constitute an admission of any kind, and specifically is not an admission that the document listed on attached form PTO/SB08 is, or is considered to be, material to the patentability of the above-identified patent application, as defined in 37 C.F.R. §1.56(b).

This submission does not represent that a search has been made or that no closer art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

This paper and the enclosed document are being submitted in accordance with 37 CFR 1.97(c)(1). Applicant states that the item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application (in Australia) not more than 3 months prior to the filing of this statement. Therefore, no fee is believed to be due.

Respectfully submitted,

For: REIGHARD et al.
